CodeForge Hackathon – PPT Submission Round

📝 Topics to Cover in the PPT:

1**. Problem Statement** – Clearly define the issue your solution aims to address.

2. **Proposed Solution** – Explain your idea and how it effectively solves the problem.

3. **Technology Stack & Feasibility** – Mention the tools, frameworks, and practicality of implementation.

4. **Innovation & Uniqueness** – Highlight the originality and how your approach stands out.

5. **Implementation Plan** – Provide an overview of development steps and execution.

6. **Business & Scalability** – Discuss market relevance, potential users, and future growth.

7. **Impact & Future Scope** – Explain the real-world benefits and possible improvements.

🚀 Submission Guidelines:

1. Format: No specific format; the PPT should be 5 to 7 slides only.

2. Deadline: Submit before the given deadline on Unstop. Late submissions will not be accepted.

3. Originality: The idea must be original and innovative. Plagiarized content will lead to disqualification.

4. Clarity: Ensure the content is clear, concise, and structured for easy evaluation.

5. Visuals & Readability: Use diagrams, charts, and visuals where necessary to enhance understanding.
